### Project Description

The main objective of INTERCEPT revolves around understanding industry needs and training youths in green skills. The project aims at motivating, mobilizing, and supporting this demographic through a series of research and training among other deliverables. INTERCEPT will not only raise awareness on this important sector but will allow each partner to build a compilation of green competences based on each partner's specific labour market, whilst also showing and training green skills to youths and thus creating a better equipped work force.

Jobsplus will be hosting the launch event at The Phoenicia Hotel Malta between the 28<sup>th</sup> and the 29<sup>th</sup> of October 2021, where the partners involved will be gathering for meetings discussing their respective areas in the project.

As part of the launch event, guest speakers will be giving presentations associated with areas related to the project. These presentations will be shown live to the public to raise awareness about the project and what it focuses on.
